"Society."

The young men of Bowling Green who endeavored to entice several of the young lady boarders at the college in that city from the institution, and when discovered by the President fired at him with revolvers, are said to be high up in Bowling Green "society." The President of the college went to Frankfort to try and induce Governor Beckham to pardon them before trial, because they were all well known members of "society." To the credit of the governor, it is said he refused to interfere, and will allow the law to take its course.

There is a great deal about this present day "society" which is nauseating to the average honest and law abiding citizen. It has come pretty near to the point where the only thing necessary to gain admission into "society" is for a young man to be the fortunate possessor of wealthy parents. His morals seem to cut no figure, indeed he is not recognized in "high society" until he has been the hero (?) of some sensational episode similar to this Bowling Green scandal.

How will the parents of these young girls, none of whom were over 18 years of age, who were caught climbing down a ladder at midnight from the college window to meet these young men who had carriages in waiting to take them to a duck supper, regard the standing of the College if the assaults of their daughters are allowed to go unpunished, because they are members of "society?" The intentions of these young men may have been entirely honorable, but it will take a terrible stretch of imagination to induce the average person to believe it. They should be punished in a manner that will teach them a lesson, which it will take them a long time to forget.

The Easter Bonnet.

"A thing of beauty is a joy forever." That the Easter bonnet is a thing of beauty is clear to all save the blind, but its perennal joys lead us into debatable ground. The passing of All-Fools-Day leaves our understanding as firm as Gibraltar, but the bill for the Easter bonnet makes the mind of the strong man waver. —Georgetown Sentinel.

Dr. SAVAAGE, of the Unitarian Church in New York, is quoted by the New York Sun as saying that the orthodox idea of "heaven is too cold." Very good; and by the same sign the orthodox idea of hell is too hot. The temperature of both states will have to be modified. —Lexington Observer.

The controlling boards of Centre College, Central University, the Louisville Presbyterian Theological Seminary and the seminary at Danville met in Louisville Friday and decided to amalgamate the two colleges into the Central University of Kentucky at Danville, and the seminaries into the Kentucky Seminary, to be located in Louisville. United States Senator J. W. Bailey has declared himself in favor of Carter H. Harrison of Chicago as the Democratic candidate for vice president in 1904. He said:

"The sweeping triumph of Mayor Harrison in his race for re-election has in all probability made him the possibility for vice president in 1904. Carter Harrison is easily the most prominent Democrat in Illinois. Altho he has sunk to rise no more."

A Gentle Hint.

In our style of climate, with its sudden changes of temperature, rain, wind and sunshine often intermingling in a single day, it is no wonder that our children, friends and relatives are so frequently taken from us by neglected colds, half the deaths resulting directly from this cause. A bottle of Boecher's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill; and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrhages, Pneumonia, Severe Coughs, Croup, or any disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. It is the thin edge of the wedge; the thick end is food. But what is the use of food, when you hate it, and can't digest it?

Scoll's Emulsion of Cod Liver Oil is the food that makes you forget your stomach.
